adding wallet to the home screen

we've made it easy for customers to add their digital rewards wallet to their devices home screen, letting them access their points balance, check on available rewards, and complete their unique customer profile to receive personalized offers and texts

iphone

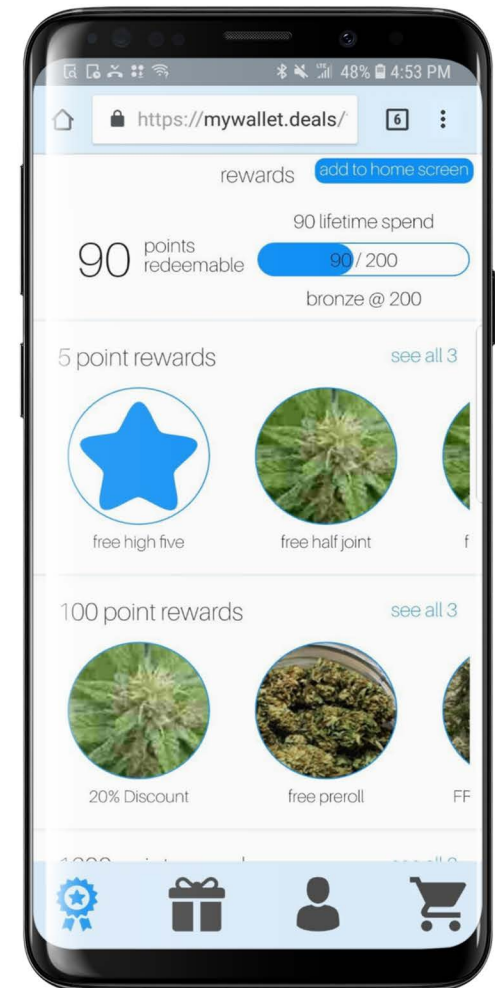

first things first

the steps to adding the digital wallet to your home screen may differ, depending on which kind of device you are using, so we have split this guide into steps for **iphone** and **android** users

note: these steps may change due to updates within the iphone or android software on your device

don't worry - your wallet may not look exactly like the examples used in this manual, but the steps will be the same

android

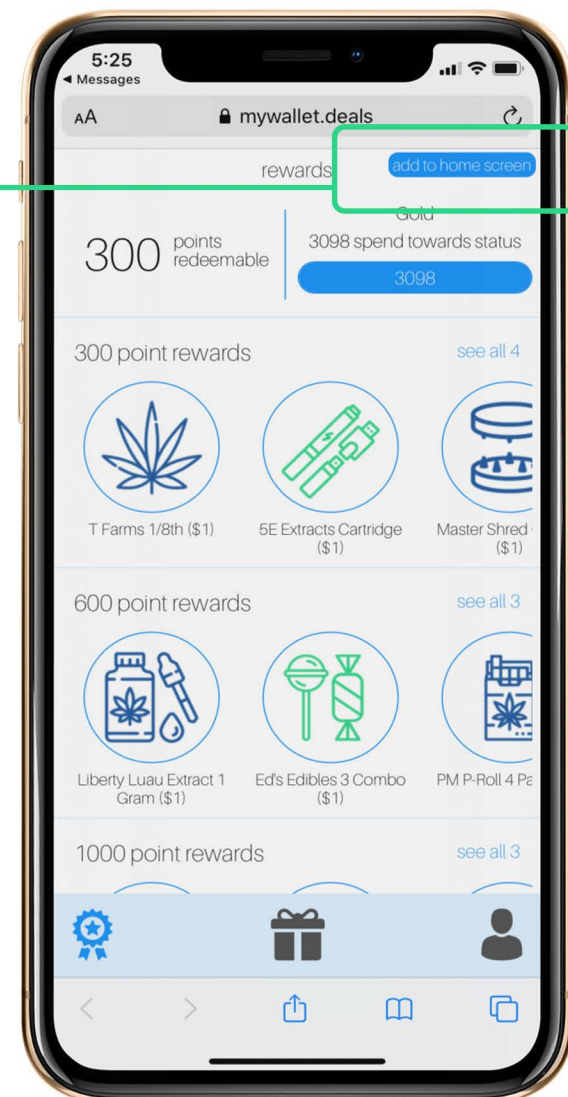

getting started: iphone

first, we will take a look at how iphone users will be able to add their wallet to the home screen of their device

step 1

starting from the rewards wallet, click on the **'add to home screen'** button in the top right corner

note: this button is available from every screen of your rewards wallet. if you need access to your wallet, just ask the retailer to text you a link to your wallet during your next visit

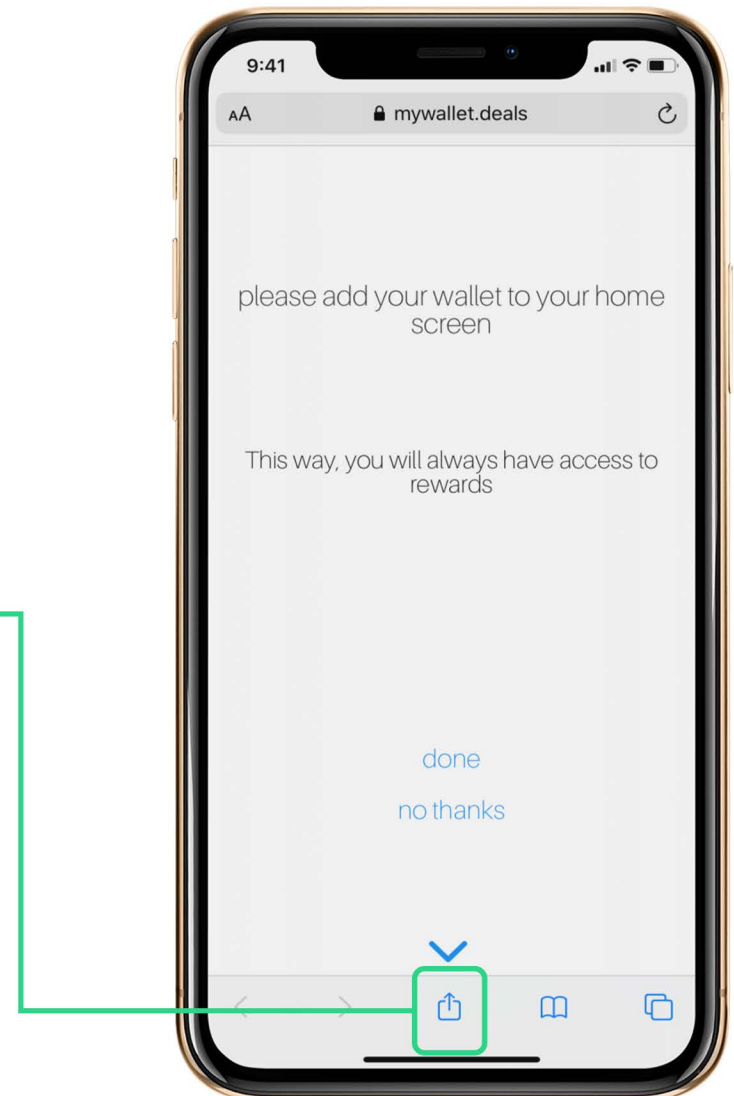

taking action: iphone

clicking the **'add to home screen'** button will open up the page shown below, which will also feature a video explaining this process

step 2

following the on-screen prompts, click the **'action (share)'** icon at the bottom of the screen

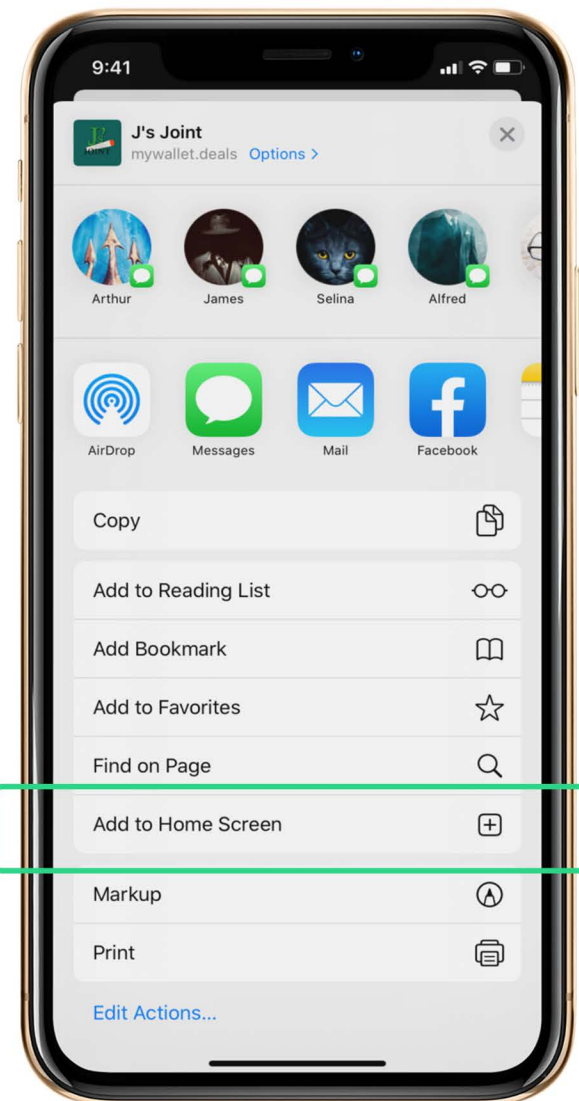

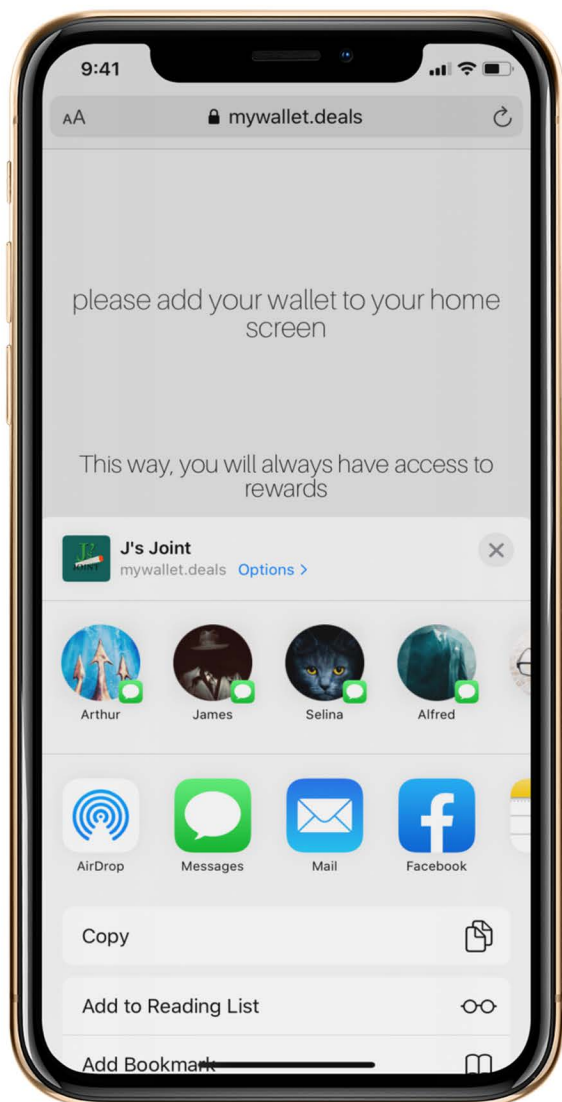

action menu options: iphone

the **'action (share)'** button will open up a menu at the bottom of the screen, giving you options on where to send your wallet link

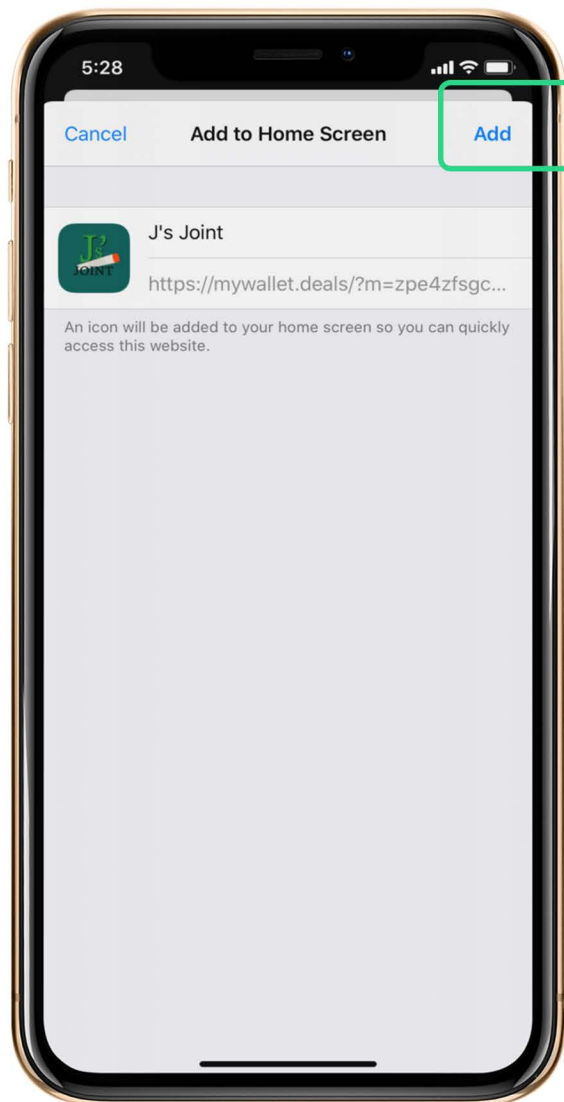

step 3

scroll down the
'action (share)'
menu options
and click on the
**'add to home
screen'** button

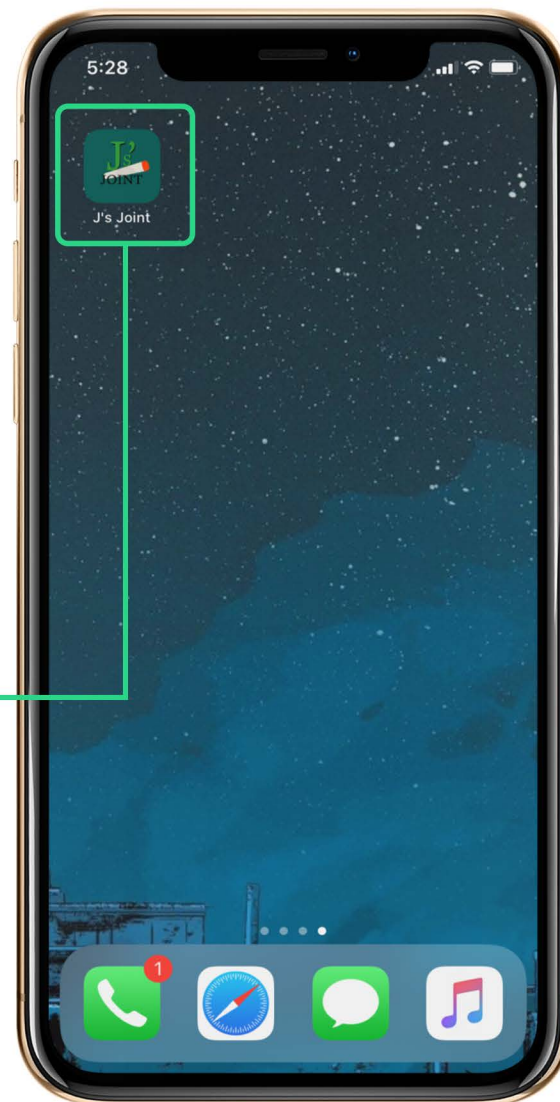

preview and placement: iphone

the **'add to home screen'** page will give you a preview of what the icon will look like and be named on your home screen

step 4

finally, just hit the **'add'** button in the top right corner of your screen and it automatically direct you to the page on your home screen where the icon is placed, letting you organize it with your other apps

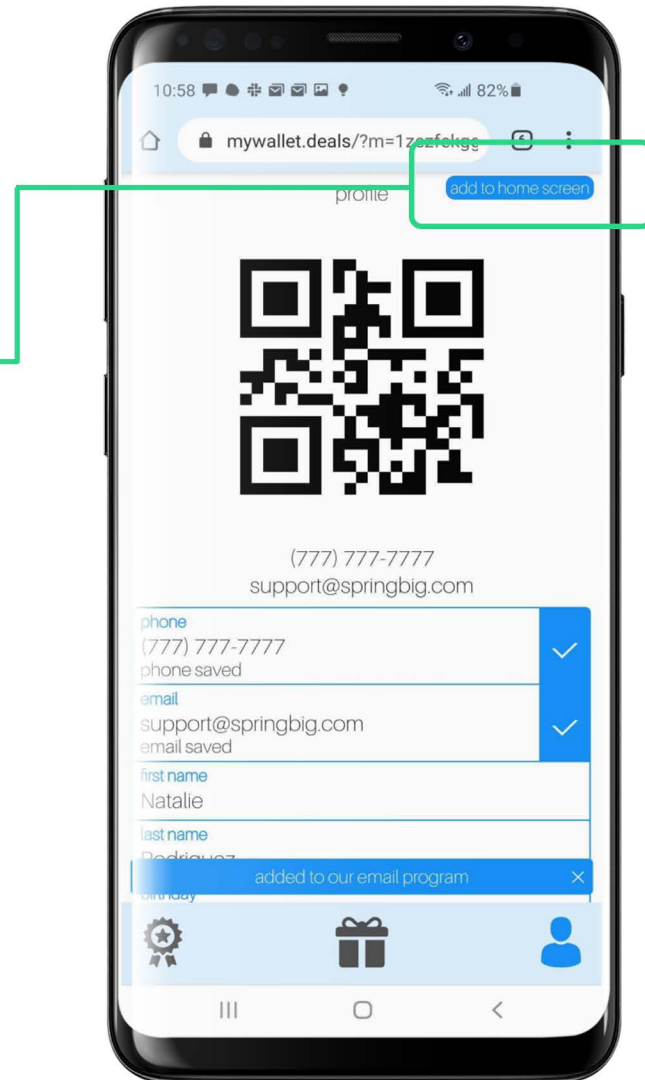

getting started: android

next, we will take a look at how android users will be able to add their wallet to the home screen of their device

step 1

starting from the rewards wallet, click on the **'add to home screen'** button in the top right corner

note: this button is available from every screen of your rewards wallet. if you need access to your wallet, just ask the retailer to text you a link to your wallet during your next visit

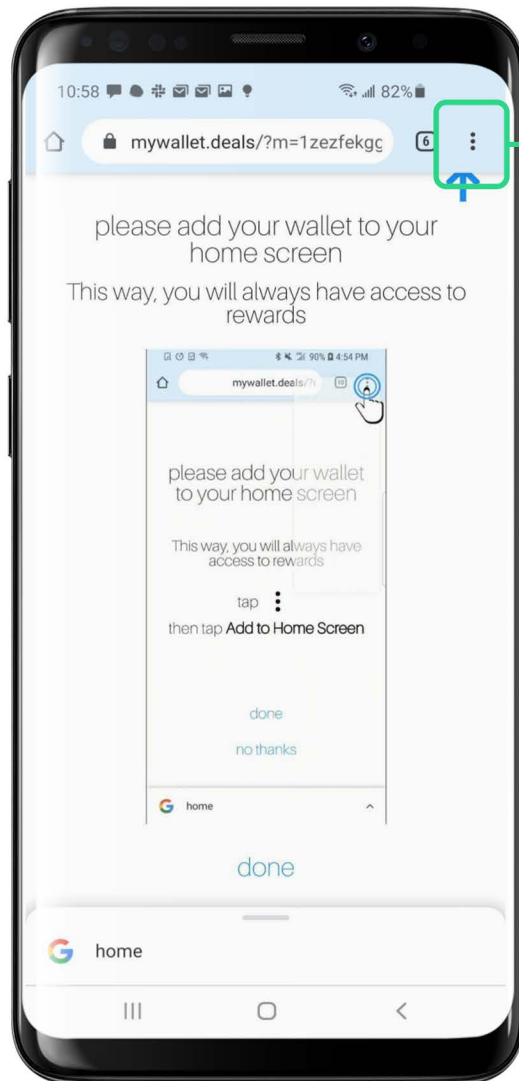

access menu: android

clicking the **'add to home screen'** button will open up the page shown below, which will also feature a video explaining this process

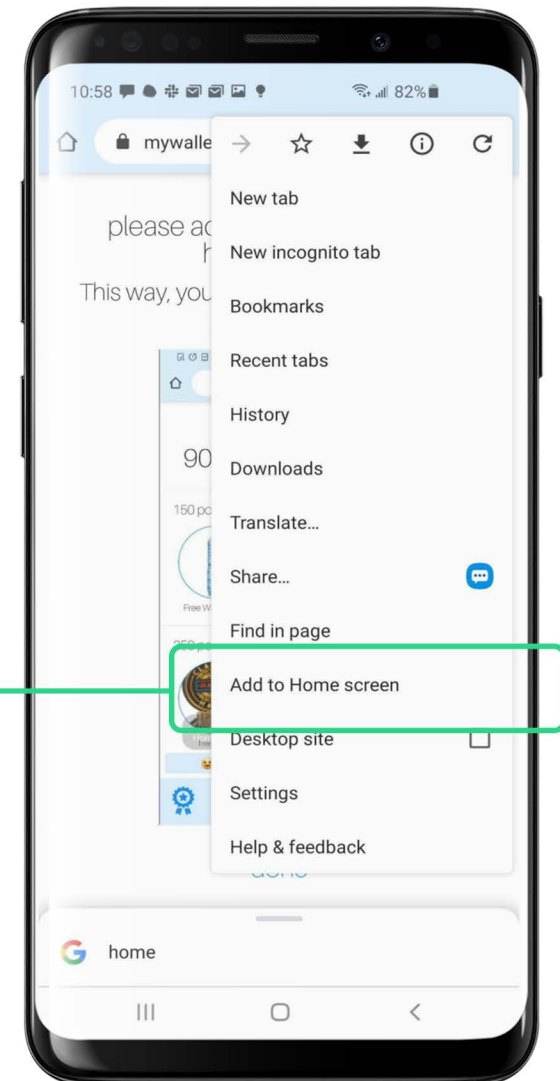

step 2

following the on-screen prompts, click the **'menu'** icon at the top right corner of the screen

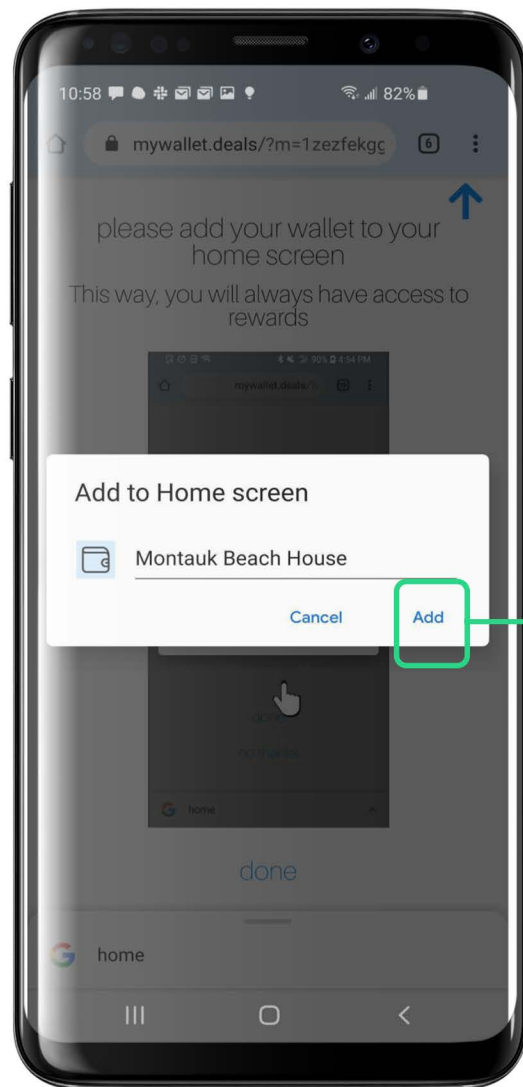

step 3

when the drop-down menu opens, click the **'add to home screen'** option on the list

preview and approve: android

the **'add to home screen'** window will give you a preview of what the icon will look like and be named on your home screen

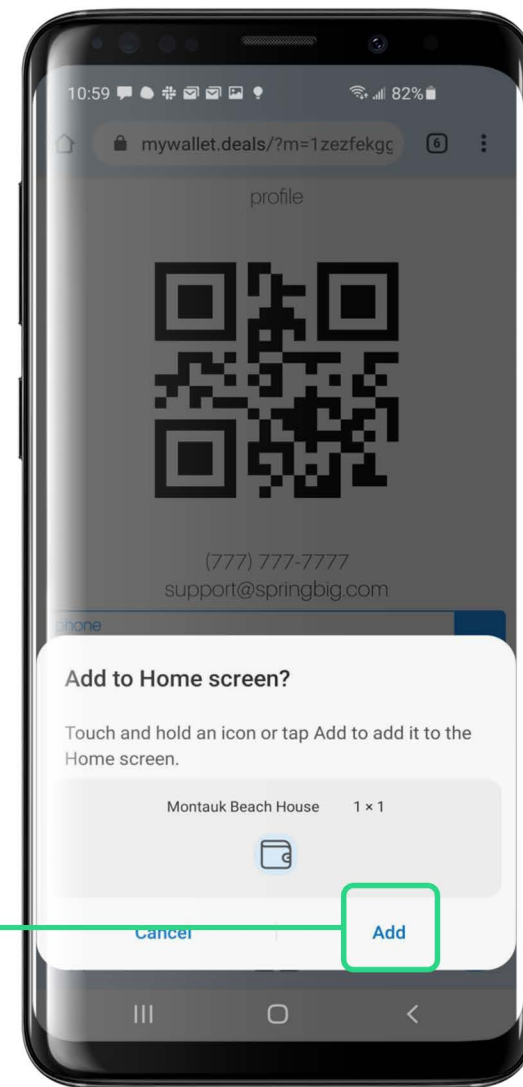

step 4

after reviewing the info in the window, click on the **'add'** button

step 5

next, you can simply tap **'add'** or touch and drag the wallet icon onto your home screen

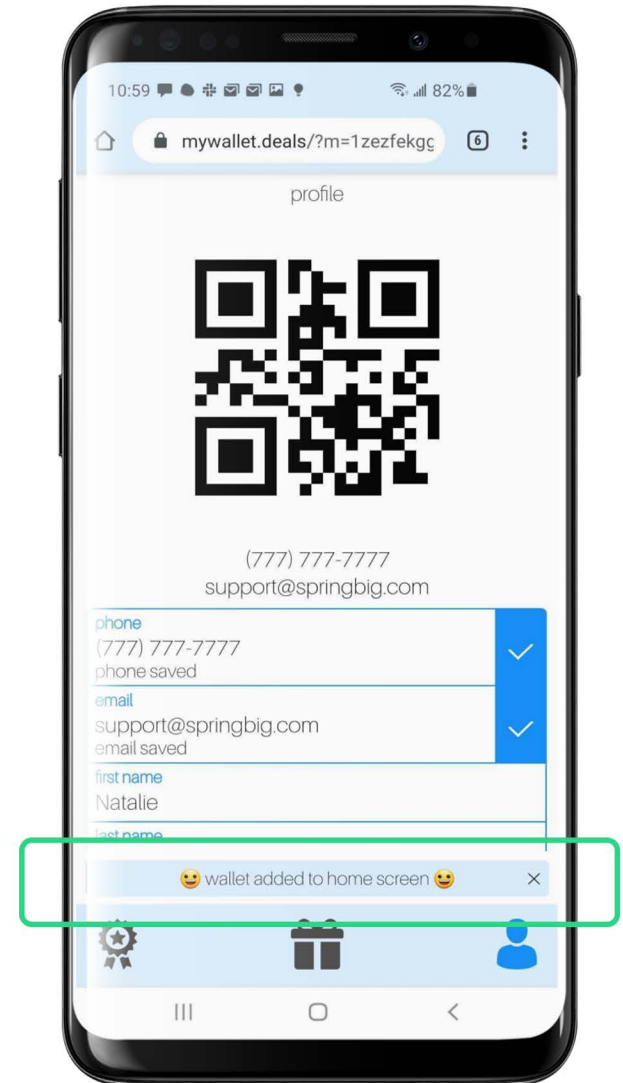

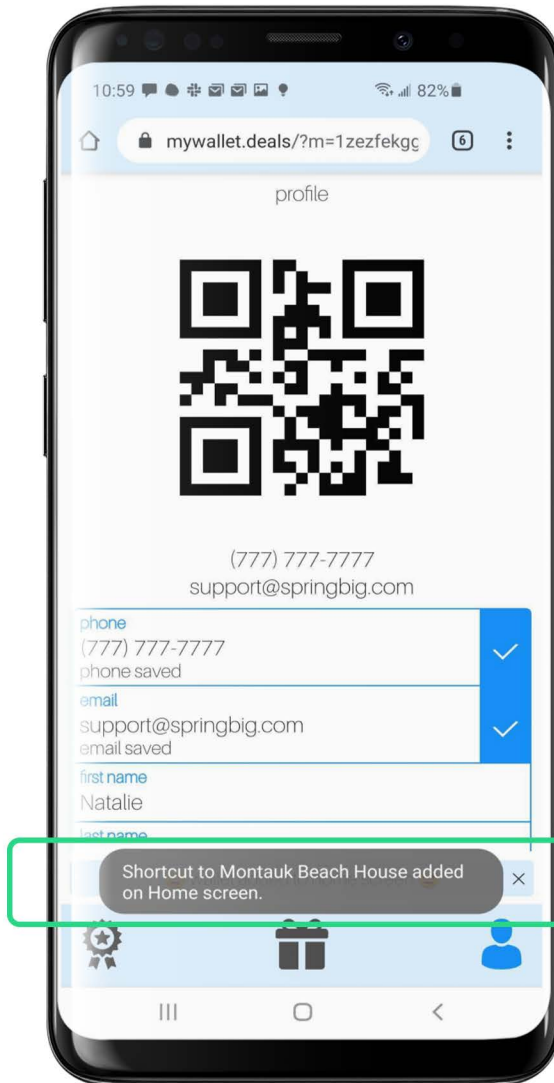

confirmation message: android

if you tapped on the **'add'** button in step 5, you will be taken back to your own digital wallet

step 6

your device will send you a confirmation bubble message showing at the bottom of your screen

you will also be able to see a confirmation message from the digital wallet as well

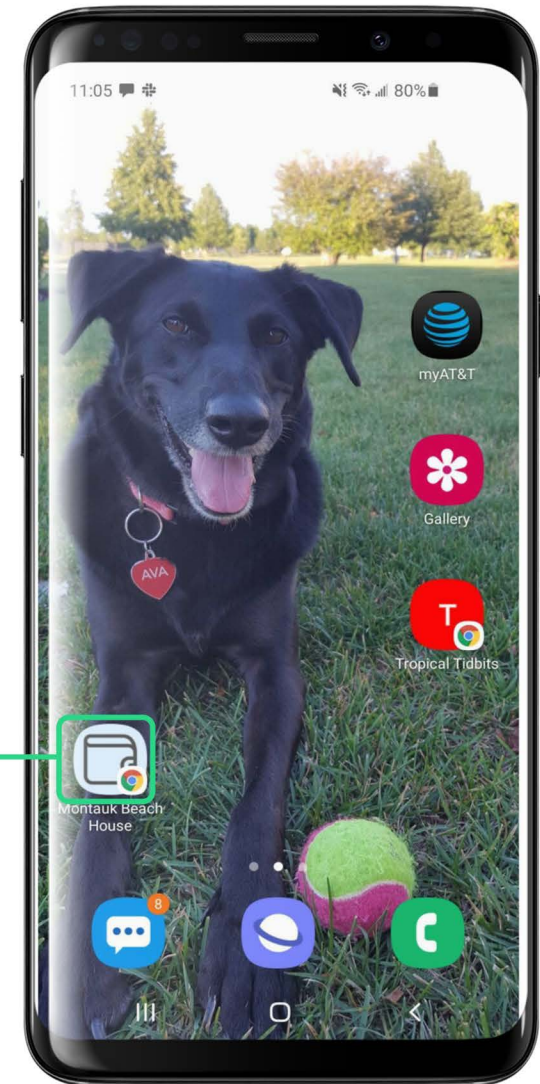

enjoy easier access: android

now you won't have to wait until you are in the store or get a text with a wallet link to view your points, update your profile, or see your available rewards

back on your home screen, you can move the icon to anywhere that makes it easier to access your wallet whenever you need it

remember, we use this digital wallet to help you stay connected, and now we are making it *easier for you to get rewarded!*
